Data and representation
CICIDS2017 + sidecar
Audit; isolate sessions
Frozen T0 transform
Protocol development
Development gates
Tune on clean banks
Lock settings + analysis
Federated experiments
Alternative run arms
FT / EI / DR
DR + DG / DM / DC
E1 acquire; E2 poison
Withdraw; no fresh Hulk
Local updates + FedAvg
Separate exploratory check
CICIoT2023: own audit, scaler and schedule
Independent runs and descriptive conclusions
Fixed-bank evaluation
Source-specific damage
Persistence; acquisition
Collateral errors; costs
Predictions + metrics
Research analysis
Paired comparisons
Component experiments
Failure investigation
Evidence + limitations
